

See the Sound – Visual Phonics

December 6 & 7, 2016

8:30 a.m. to 3:30 p.m. (CST)

Workshop #049-17

GRREC Office & Training Facility • 230 Technology Way • Bowling Green 42101

The Special Education Division of the Green River Regional Educational Cooperative is pleased to offer See the Sound – Visual Phonics training. See the Sound – Visual Phonics is a system of 46 unique hand cues and symbols that represent the sounds of English. It is a somewhat simplified, visual, kinesthetic version of the International Phonetic Alphabet (IPA). Participants will learn a hand cue for each of the 46 sounds in English. Each hand cue is associated in some way with the production of the particular sound. See the Sound – Visual Phonics benefits students who read below grade level in general or special education settings, children in early education programs, at-risk readers, students who are deaf or hard of hearing with any degree of hearing loss, and students learning English as a second language.

How Does See the Sound-Visual Phonics Help?

- See the Sound-Visual Phonics is the first step to reading, as sound (not the alphabet) is the root of language, and it is easy to use. Once a student has learned it, s/he has a powerful tool to learn basic literacy and communication skills. Most beginning readers learn it more quickly than other methods. Many “remedial” readers can learn it in a few weeks.
- See the Sound - Visual Phonics helps students pronounce and understand words so quickly that almost from the beginning, comprehension, not decoding, becomes the natural focus of reading.
- See the Sound - Visual Phonics is cost effective and can be incorporated into almost any traditional reading program to create a comprehensive curriculum.

Kim Hall, NBCT, has 21 years of experience as a teacher for students who are deaf or hard of hearing. Since 2006, she has trained hundreds of educators across the Commonwealth on implementing Visual Phonics to enhance the reading, writing, and speaking skills of students.

Audience:	Speech Language Pathologists and SLP Assistants, Teachers of the Deaf and Hard of Hearing, Teachers of English Learners, Preschool Teachers, Kindergarten Teachers
Presenter:	Kim Hall, NBCT
Location:	GRREC Office & Training Facility • 230 Technology Way • Bowling Green, KY
